INTERNSHIP EXPERIENCE

INTERNSHIP

UNILEVER THAI HOLDINGS LTD. (FACTORY)
| Lardkrabang Industrial Estate | June - July 2022

Data Analytics by Power BI and Support Team.

- Finished Power BI in 2 months.
- Observed data for the team to analyze the data.
- Prepared slides for senior to present in the meeting.

ADDITIONAL

In high school, I went to the band competition, which is a team in the Hotwave program. There is a team. Help each other suggest about re-arranged music to enter the Audition round. Which everyone has a common responsibility Try their best for the team.

During the university, I had the opportunity to do an internship with Unilever for a period of 2 months, which assigned a duty that was not about what I learned was Power BI and joined the team to improve product quality using Power BI to analyze data quickly. I collaborated with various departments, providing them with the necessary information for analysis, and even had the privilege of attending real meetings with department heads.
